

Aligning Project **With Priorities**

2025-26

Heritage.

ILEX is proud to be part of prestigious projects across India, managed by seasoned professionals with over 12 years of experience in turnkey projects.

Recognized for both traditional methods and innovative technologies, we are the trusted partner of many repeat clients.

Our robust project management system ensures precision, efficiency, and full control at every stage.

Backed by a skilled team that can rapidly scale operations, we combine aesthetics with business sense and maintain the highest standards of quality.

Strict adherence to IS codes, specifications, and quality procedures underpins every project we deliver.

Company Profile

- Typical contract value has been ranging from INR 10 million to INR 250 million.
- Substantial financial stability due to zero debt, expanding client base, and sound cash flow.
- Private sector jobs account for nearly 90% of the overall turnover of the company.

Advantage-Ilex

- Wide array of construction-Civil and MS structural works and all related services
- Repertoire of turnkey service includes Civil, Interior, MS structural and MEP
- End-to-end Engineering project handled by team ILEX.

Our Philosophy

Our strength lies in our people. Skilled professionals at every level backed by the best equipment make them a formidable team. Our philosophy is to execute a top quality job keeping costs and resources in line with the desired parameters.

Segment Profile

- Housing/Residential Segment-Multi-storeyed housing complexes, residential townships, villas, etc.
- Commercial/Industrial Segment- Offices, factories, shopping malls, and other facilities
- Water/Sewage Treatment Segment-Water, Effluent, and Sewage treatment plants.
- Other projects executed like-Airports and other infrastructure projects

Quality Assurance & Procedures

In line with the requirement of our various clients and consultants, we have documented quality systems and procedures with fully operational material testing facilities in space.
